Professional Equipment for Pest Control

Now with a second spray Outlet for a poverful wide Spray pattern. With On/Off control.

Spray Crawler 175-200-250

Self-Prop Cannon Air Sprayer
38 HP Engine

Spray Range up to 35m

Spray Crawler 175-200-250

Self-Prop Cannon Air Sprayer 38 HP Engine

Spray Range up to 35m

- The **Self-Prop Spray Crawler 175, 200 or 250 Cannon** can accede to any uneven terrain.
- It is easy to drive, safe and reliable.
- The integral spray Unit is carried by an original Honda Crawler model 450.
  The spray unit can be instantly unloaded to utilize the Honda Crawler for other purposes.
- All controls of the Tifone Spray Crawler 175, 200 or 250 are controlled by a control box.
  A remote Wireless remote control is also available (option).
- **The easy instant remote pointing of Flexigun Cannon allows the Operator to stay at a safe operational distance from the trees and precisely point and adjust the Cannon jet against the tree and tree section to be sprayed.**
- The number of trees sprayed per hour will be probably 10 times as much, or more, compared to Hand Lance spraying.
- Saving of spray mixture will also be enormous, compared to the spraying by Hand Lance spraying.
- The Pest Control efficacy will also be incomparably better, as the Cannon Flexigun spray range can reach up to 35 m, while the Hand Lance will not go over 15 m.

	Engine HP	Tank Capacity l.	Empty Weight Kg
Flexigun Cannon	38	175	370
	38	200	372
	38	250	374

OPTION

The **TIFONE Electrostatic Charge System E±S-4** allowing to spray at Low Volume, i.e. with a further reduction of litres to be sprayed per tree and with an improved "spray coverage effect" also of the vegetation areas not directly exposed to the spray mist jet, like the upper central part of the Palm tree, otherwise very difficult to be reached by the spray mist directly.

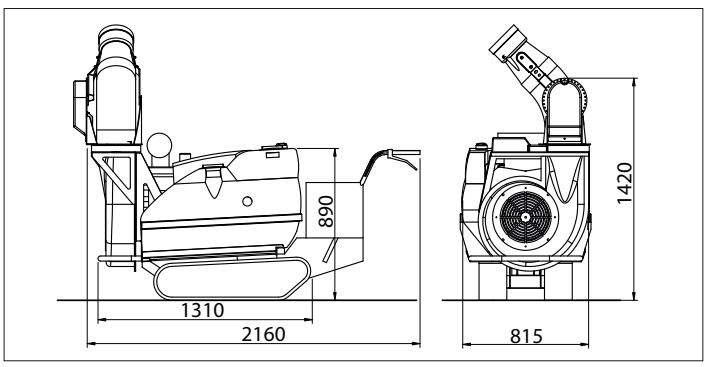

"ULV" ABSOLUTE HYDRAULIC SYSTEM (Option)

The "ULV- Absolute" is based on an hydraulic system granting an highly micronized spray mist at 3 different, instant selection, degrees: D90 40 µ, 30 µ, and 20 µ.
With great advantages:

- For continuous operation, without any recharging pause
- Without any moving part
- Very reduced operating noise, as the system is perfectly operating also at low engine speed,
- And an absolute constancy of droplets size
- At any amount of spray mist output.

Automatic, angle programmable, continuous Brush Spraying.
